AUTO SKILLS - FREE JOBS SITE - LAUNCHED

AAPR secured over 140 new job pledges by the end of the day at its Auto Skills inaugural launch at 3M with its 100 jobs challenge.

A man in a light-colored suit and tie is pointing his right index finger at a computer monitor. The monitor displays the Auto Skills website. The website has a dark header with the date "13 May 2016". Below the header, there is a section titled "Apprenticeship in the Automotive Industry?" with the tagline "Get a Trade, Career made" and a photo of a young man in a blue uniform standing next to a car. To the right of this section is a yellow box titled "Jobs Counter" which lists the following statistics: "Employers - 116 Registered", "RTO - 5 Registered", "Jobs Support - 6 Registered", "Jobseekers - 4 Registered", and "Jobs - 123 Open". At the bottom of the website, there is a row of four small images: two men in suits, a blue car, and a building. The Windows taskbar is visible at the bottom of the screen, showing icons for Internet Explorer, Outlook, and several other applications.
